Korea 11 exhibitors 

India 8 exhibitors 

Voice of exhibitors

- Among exhibitions held in Japan, JIOSH+W was exceptionally international and left a lasting impression with its unique character
- We were able to exchange opinions directly with end users (factories), and the average time visitors spent at our booth was long, which allowed for highly engaging business discussions
- JIOSH+W also provided new opportunities to connect with overseas companies and to meet customers with whom we had never had contact before

Visitors

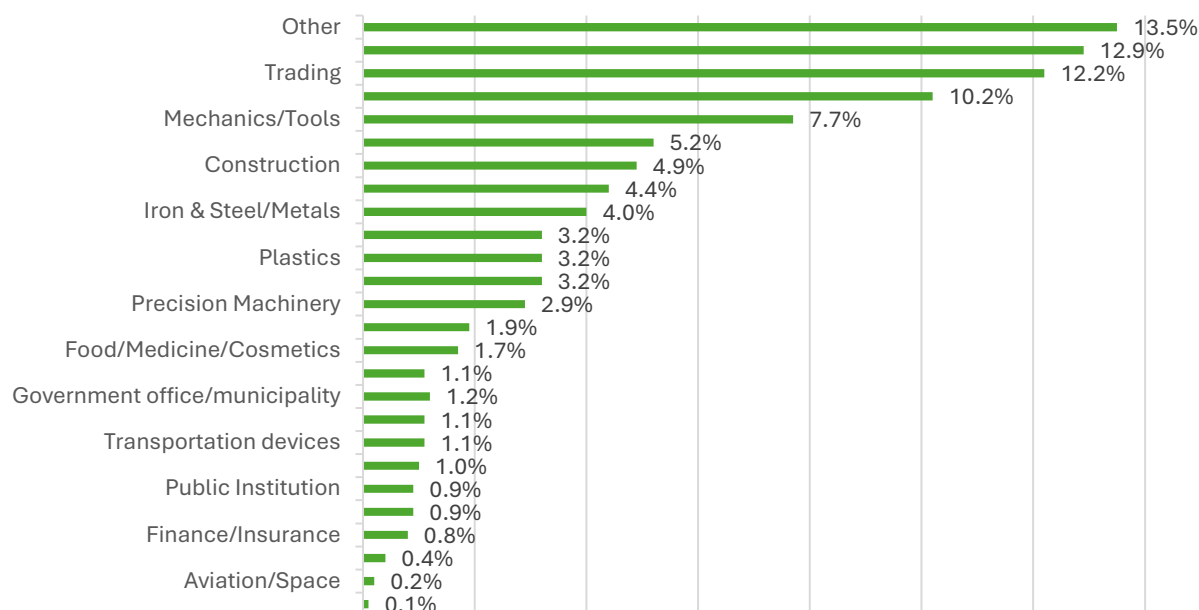

Day	Weather	Number of visitors
